Enterprise Information Services

When Performance Counts...
EIS Delivers 100% Client Satisfaction

EIS has been proudly supporting the Federal Government since 1994.

About EIS

EIS is a Federal Information Technology (IT) and professional services contractor with over 15 years of excellent past performance. EIS is a SEI CMMI Maturity Level 2 assessed and ISO 9001:2000 registered company. EIS follows ITIL and PMBOK standards and expects to be ISO 20000 certified by July 2010. EIS enjoys excellent financial stability and has remained *debt-free* since inception. EIS has many 8(a), Small Business, and Small Disadvantaged Business (SDB) contract vehicles under the \$25 million size standard. Currently, EIS is also SDB certified by the Small Business Administration under the \$35 million and 500 employee size standards.

Guiding Principles/Core Values

Committed to conducting business with honesty, integrity, and a dedication to excellence. Ensuring client satisfaction with high-quality products and services that are delivered on schedule and within budget. Promotes staff satisfaction through challenging work, excellent compensation, and individualized career development.

Commitment to Excellence

EIS' dedication to providing complete customer satisfaction is reflected in our commitment to developing an in-depth understanding of our customer's mission and requirements. We maintain a highly motivated and dedicated professional/technical workforce, skilled in the disciplines that complement our core businesses. EIS has a solid track record of providing 100% customer satisfaction through the delivery of high quality services, on schedule and at or below budget.

Core Competencies

Program and Project Management Services:

EIS employee, Mr. Rick Petersen, received the U.S. Coast Guard (USCG) Commandant's Award for Innovation in 2007 as recognition for Business Process Improvement at the Aviation Logistics Center (ALC).

Technology Assessment and Evaluation Services:

EIS provided COTS technology assessment and insertion for the U.S. Department of State (DoS) Operational Support and Maintenance (OSAM) contract. EIS developed, assessed, and implemented a web-enabled Automated Cash Register System (ACRS).

Systems Engineering:

EIS received a DoS Assistant Secretary award for supporting the integration of fingerprint and facial recognition biometrics technologies into the DoS Immigrant Visa Systems deployed at 240 embassies and consulates and 55 Consular Agencies worldwide, supporting over 8,000 users and processing over 1,000,000 applications annually.

Operations Support Services: Our team of 80 support a national enterprise logistics system that provides 24x7x365 support for USCG aviation operations worldwide with more than 14,000 users by processing, tracking, and management of millions of logistical events and associated pages of documentation; and supply chain management, procurement, warehousing, and distribution processing and fiscal accounting for \$850M in aircraft parts inventory.

Network Operations & Administration: EIS provides 24x7x365 network monitoring for 40,000 users of the Veteran's Affairs' Network Security Operating Center (NSOC) and Tier I and Tier II Customer Support Center (CSC) Services. EIS is also primarily responsible for incident response efforts.

Storage Services: EIS provides design, engineering, operations and maintenance for the USCG data center in Elizabeth City, NC.

Web Services & Content Management: EIS supported USCG CG-9 Major Acquisition Projects with technical support to develop a Section 508 compliant acquisition websites for seven projects. EIS also assisted with Information System Security Officer (ISSO) duties and provided unique WebPortal support to the RB-M, and FRC projects.

Across SITE SOW

Acquisition & Property Management

Services: EIS provides acquisition of materials, receiving, inspection, and warehousing of repair parts for the USCG National Security Cutter Program.

Maintenance & Remote Diagnostic Services:

For DoS Overseas Network Support, EIS supported network, server and applications deployment to embassies and consulates. EIS provided 24x7x365 remote monitoring and support via DoS' OpenNet.

Information Assurance (IA) Services:

EIS' IA and Certification and Accreditation (C&A) efforts earned USCG a FISMA Score of 98 for 2008. EIS' Information Security Specialists provide IA Operations and Maintenance and Security Engineering.

Security Management: EIS performs security sensitive work and provides technical support (including security management, administration, analysis, and network operations in a secure environment) and recruiting cleared professionals for more than 20 classified contracts. We currently support both classified and unclassified Government programs across multiple security domains.

Risk Management: EIS supports the Navy's Trident Missile Guidance Program alternatives for the life extension, affordable sustainment and enhancement of strategic guidance system performance.

Testing and Verification Services: EIS provided IEEE Standard 1012-based independent software IV&V, software testing, requirements analysis, and PVCS Dimensions repository tools for DoS OSAM.

Training Services: EIS help desk personnel educate and inform U.S. Patent and Trademark Office (USPTO) Search and Information Resources Administration (SIRA) customers of process and system changes. EIS develops webpages and CBT courses for system and project documentation including CM and Security documentation research and production.

Committed to Client Partnerships - Dedicated to Staff Satisfaction
